The following is an examiner's statement of reasons for allowance: In the process of the combination bonding including chemical bonding occurs prior to the cleaving process. As a result it is not clear that chemical bonding is inherent in the cleaving process even though there is overlap between the wavelength used in the instant invention (.75-1.5  $\mu\text{m}$ ) and that of Usenko et al (1.06  $\mu\text{m}$ ).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
